# 1 | Introduction

## 1.1. Purpose

The *Students&Companies (S&C)* platform bridges the gap between university students seeking internships and companies offering them. It simplifies the process of matching students with internship opportunities based on their skills, experiences, and preferences, as well as companies' requirements and offered benefits.

The software involves three main actors: **students**, **companies**, and **universities**.

- **Students** use the platform to search and apply for internships, submit their CVs, and receive recommendations tailored to their profiles.
- **Companies** advertise internships, specify requirements, and manage the selection process for suitable candidates.
- **Universities** monitor the execution of internships and handle complaints or issues that may arise.

S&C features a **recommendation system** that matches students and internships using mechanisms ranging from keyword-based searches to advanced statistical analyses. The platform also facilitates communication, supports the selection process, and tracks internship progress to ensure transparency for all involved parties.

## 1.2. Scope

## **1.3. Definitions, Acronyms, Abbreviations**

### **1.3.1. Definitions**

### **1.3.2. Acronyms**

### **1.3.3. Abbreviations**

## 1.4. Reference Documents

## 1.5. Document Structure

## 2 | Architectural Design

### 2.1. Overview

#### 2.1.1. High Level View

### 2.2. Component View

#### 2.2.1. RESTful APIs Component Diagram

#### 2.2.2. Service Discovery Component Diagram

#### 2.2.3. Event-Driven Pattern Components

#### 2.2.4. Data Layer Access Component Diagram

#### 2.2.5. User Interfaces Component Diagram

### 2.3. Deployment View

#### 2.3.1. High-Level Deployment View

#### 2.3.2. Detailed Deployment View

### 2.4. Run Time View

### 2.5. Component Interfaces

### 2.6. Selected Architectural Styles and Patterns

#### 2.6.1. Database Management

## 3 | Specific Requirements

### 3.1. External Interface Requirements

#### 3.1.1. User Interface

#### 3.1.2. Hardware Interfaces

#### 3.1.3. Software Interfaces

### 3.2. Functional Requirements

#### 3.2.1. Use Case Diagrams

#### 3.2.2. Use Cases

### 3.2.3. Sequence Diagrams

## 4 | Requirements Traceability

# 5 | Implementation, Integration and Test plan

## 5.1. Overview

## 5.2. Implementation Plan

### 5.2.1. Features Identification

### 5.2.2. Components Integration and Testing

## 5.3. System Testing

## 6 | Effort Spent

## 7 | References

## 8 | Per fare prove

Ciao ragazzi come va?

Guardate questo link importantissimo: [1]

Questo lo ho aggiunto dopo.

Questo aggiunto dopo da VS code direttamente.

modifica in chimata
